New E-Mail Address for your Quote Requests

We have created a new e-mail address to accept your request for quotes.

Currently you send directly to individuals within the company, if that person is not in on that particular day, your quote will go unanswered until they return. In order to get your quote back to you within the same day or at the latest, the next day we encourage you to send all your quote requests to:

INTERIOR DESIGN SHOW

SUN GLOW WILL BE EXHIBITING

Sun Glow will again exhibit at the Interior Design Show from February 5 to 8, 2009. Last year was our first year exhibiting and the show marked our launch of the Artisan Collection. We had a tremendous response and the booth was constantly buzzing with interested designers, consumers, and competitors.

This year we will again feature the Artisan Collection and introduce a new fabric with unique characteristics which we will tell you about in the January newsletter. Come see us at booth 1128.

OPPORTUNITY TO WORK OUR BOOTH

As you know, Sun Glow does not sell to the end user and the show has two consumer days. We are providing our dealers with the opportunity to reach thousands of potential clients, many of them with immediate need for our product. We will have our new Sun Glow brochure available to which you could attach your business card. To see our new 4 page brochure which identifies all our products go [here](#)

The consumer days are

Saturday February 7, 2008 10:00 AM - 7:00 PM

Sunday, February 8, 2008 10:00 AM - 6:00 PM

Please let me know if you are interested in this opportunity, one day or both. We will limit attendance to three dealers per day.

REGISTER TO ATTEND THE TRADE DAY Friday February 6, 2009 - FREE UNTIL JANUARY 2, 2009

After that date, pre-registration is \$15 (until January 30th) and onsite registration is \$25. [To Register](#)

New Skyline Clutch

The SL-16 is being replaced by the new SL-20 clutch. It has the same exterior dimensions as the SL-16 but features a longer Velvetrol configured housing with more springs and less overall resistance. The result is a smoother releasing clutch that can support more weight.

- Lifts up to 20lbs
- Fits 1.5" tube and adapts to a 2" tube
- Replaces SL16 Clutch
